Financial Attairs. Yesterday was rather quiet in Thirdstreet; but the demand for Money was still in excess of the ability to accommodate, and the market very close, without any ancomfortable pressure in any quarter. At the Discount-houses the inquiry for Loans was large, and considerable good Paper was rejected; while negotiations were made in the street at 246630 per cent.

The financial feeling is improving, and the business of the street growing more animated and healthful; while many parties seem to think that the rates of Money should be lower than they have been. Some of our Bankers report their business as active and catisfactory as it has been at any time during the past five years.

Eastern Exchange was rather infirm yesterday at previous quotations, though some houses mentioned an augmented demand. The demand is not beavy, nor is the supply. New Orleans Exchange was quiet, and Gold was in better request; % being the general selling rate.

Owing to the receipt of telegrams from Chicago yesterday, announcing that Eastern Exchange was very scarce there at 5 prem. Illinois and Wisconsin Notes were put up to 5 discount by our Brokers, who were not desirous of buying any amount, even at that price, as they believed the price of Exchange would go still higher in the North. Our rates of Exchange and Coin at pres-

ent, are as follows: Doplay. %9 5 prem 4 prem

The New York news yesterday was not very favorable, financially, though an active business was done in Stocks. Flour was in limited demand here; small lots selling at \$4 75. Whisky was in good demand and higher, 1,000 barrels selling at 14661434c. Groceries were unchanged; Wheat was firm, with light offerings. Ear-Corn and Rye steady, and Oats and prime fall Berley advanced. Provisions were less firm, and it was rather easier to buy than on Monday. Mess Pork was offered freely at \$16 per barrel. Bulk Meats sold freely, and Green Meats were higher.

The receipts of Hogs were not large yesterday; but as many were offered for future delivery, the market became depressed and closed heavy; packers being unwilling to pay over \$6 25, while bolders asked \$6 40 to \$0.50. Some 1,200 head were disposed of at \$6 50 to \$6 53 per 100 pounds.

The following are the Imports and Exports during the twenty-four hours ending yesterday at noon:

The number of Hogs slaughtered at Louisville, and about the Falls of the Obio, during the past season, was 207,813-or 44,767 head ess than last year. The real deficit is only about 30,000 head; the increase in weight about seven per cent., reducing the deficleacy equal to 30,000 head in round num-

Yesterday's Louisville Courier observes respecting Menday's Provisions:

The Provision market is firm, and an ad-The Provision market is arm, and an anywarce in prices was fixed to-day, with sales of mess Pork at \$16 25 for city packed and \$16 for country packed. At the close of the market most of the packers were holding at \$16 50, though some lots could still be bought at \$16 25. The market for Bacon is firmer, ith a better demand on Southern orders, the sales to-day being fair at 734c, for Shoulders, 9c, for Rib, and 1034@11c, for clear Sides. There was a small demand for Land, with gales at 10c, for tierces and 1034c for keg. The Import entries of the past week at New York, exclusive of foreign Specie, were: 

Against \$3,001,904 the corresponding week last year. Of the Dry-goods entries, only \$384,000 was placed on the market, the remainder passing into Bonded-warehouse, The entries of foreign Specie were \$1,288,000. And a further sum of \$1,456,000 was delivered from California by the steamer of the

The Export clearances of Domestic Produce and Miscellaneous Goods amounted to \$2,294,601, against \$1,513,182 same week last season. The exports of Cotton from the Southern ports amount to 132,000 bales, equal to an Exchange of \$6,100,000, against 118,000 bales the same week last senson.

Monday's Tribuse informs us in regard to Saturday's New York Stock Market:

The Stock Market was fairly active to-day, and although somewhat irregular, maintains generally the improvement recently estab-lished. The demand for home investment has improved during the week, and the buy-ing has been more earnest and confident throughout. Political matters, although quite as much under discussion, no longer exercise a controlling influence over the market, and a superabundant supply of Money begins to have its legitimate effect. The most active Stocks of the day were Erie Galena, and Toledo, but the dealings in most of the leading descriptions were to a fair extent. The transactions on time were quite imited, and there is evidently a disin tion to enter into new engagements in this

Way.
The entire sales during the day on buyers' The entire rales during the day on buyers' option, longer than three days were but 600 Shares; and on sixty days 300 Shares only were put under contract. The Bears, although somewhat cautious of late, made some efforts to turn the tide, but the advantages of the murket seem to be with the other side of the house. State Stocks were rather lower, with but moderate transactions. For railway Bonds, however, there was a very good demand, and we note an advance in some of the issues which suffered the most in the panic. At the Second Board the chappes were not important, but with one changes were not important, but with one or two exceptions, prices were slightly lower

The Bank-statement of Monday will probably show sees further contraction of Loans, which, however, is compulsory, by the maturing of Bills receivable, combined with the falling off of new efferings. The Specie line will be above \$24,000,000, although the average possibly may not show it. It would have been \$26,000,000 but for the payments into the subtressury on account of Treasury-notes.

In foreign Bills there is nothing of importance doing, and rates are firm. Sterling is \$10219@1012 for first-class Commercial and Bankers' signatures. France are 5.45@0.35.

okers' signatures. Francs are 5.45@5.35. Menday's Boston papers state as to finances

The Banks are becoming decently strong in Specie, with New York Exchange strongly in favor of Boston. The present holding is nearly \$4,200,000, an increase of about \$800,000, and hore strongly the panic. Very prime Psper is searce and in request at 8 to 10 per cent. There is no trace of any panio among Commercial people, and all sorts of merchandise are advancing.
